GREEN BUTTON

GOOD FOR PEOPLE.
GOOD FOR NATURE.

Karlowsky Fashion carries products that are certified with the Green Button label (Grüner Knopf) GOOD FOR PEOPLE. GOOD FOR NATURE.

The Green Button (Grüner Knopf) is a government-run certification label for sustainably manufactured textiles. It provides guidance for consumers when shopping. The Green Button (Grüner Knopf) sets out mandatory requirements to protect people and the environment in the textile production process. A total of 46 stringent social and environmental criteria must be met – ranging from wastewater to forced labour.

What is special about the Green Button (Grüner Knopf) is that the company as a whole is also audited, not just the product. This makes it the first government-run certification label to systematically audit companies for compliance with human rights and environmental due diligence in their supply chains.

The government defines the criteria and conditions for the Green Button (Grüner Knopf), creating clarity and trust. Independent auditors review compliance with the criteria.

More information:

Certified by Control Union, CU 1091876
www.g-k.eu/karlowsky

Karlowsky® is certified according to GRS

Karlowsky Fashion is certified as a company according to the Global Recycled Standard (GRS). GRS is a product standard for tracking and verifying the percentage of recycled materials in a final product. The standard applies to the entire supply chain and addresses traceability, environmental principles, social requirements, chemical content and product labelling. With GRS certification, Karlowsky Fashion supports a circular economy that reduces waste by using it to make new products. These criteria are constantly monitored by independent accredited bodies.

The certificate's criteria include:

- fibre use criteria
- strict social criteria
- minimum water consumption
- free from toxic substances such as PFC and PTFE
- rules for storage, packaging & transport

A product can only be certified when the complete production chain from the manufacture of the raw material to the finished product is certified.

More information:

certified by Control Union, CU 1091876

Quality Testing at Labtech

In the accredited German testing laboratory LABTECH Prüfungsgesellschaft mbH, we test our materials and products for washing properties, functionalities and harmful substances in accordance with standardized test procedures. This ensures quality assurance along the entire supply chain.

More information:

www.labtech-gmbh.de/en/

Member of amfori, the leading global business association for open and sustainable trade. We participate in amfori BSCI. For more information visit www.amfori.org

BSCI (BUSINESS SOCIAL COMPLIANCE INITIATIVE)

We, Karlowsky Fashion GmbH, are staunch participants of the amfori BSCI (Business Social Compliance Initiative) and have committed ourselves to compliance with the BSCI Code of Conduct. It includes basic requirements for our manufacturing companies in terms of working conditions and social standards.

These standards include:

- the right to freedom of association, the right to collective bargaining,
- no discrimination, fair remuneration, decent working hours,
- occupational health and safety, no child labour,
- special protection for young workers, no precarious employment,
- no bonded labour, protection of the environment, ethical business behaviour.

We are committed to these standards and we want to work exclusively with companies that continuously adhere to the same values. By choosing Karlowsky Fashion GmbH, you are choosing articles that have been produced in a socially responsible way.

More information:

www.amfori.org

Karlowsky Fashion carries products with the STANDARD 100 by OEKO-TEX® product seal

If a textile article has been awarded the STANDARD 100 label, all components of this article, i.e. also all threads, buttons and other accessories, have been tested for harmful substances. The testing is carried out by independent accredited testing laboratories based on the extensive OEKO-TEX® criteria catalogue. The testing procedure takes into account numerous substances, both regulated and non-regulated, that could be harmful to human health.

In many cases, the limit values set for STANDARD 100 exceed national and international requirements. The criteria catalogue is updated at least once a year and expanded to include new scientific knowledge or legal requirements.

More information:

certified by Hohenstein, S22-3027 HTTI
www.oeko-tex.com/standard100

Karlowsky® is certified according to GOTS

Karlowsky Fashion is certified as a company according to the Global Organic Textile Standard (GOTS). GOTS is recognized as one of the world's leading standards for textiles made from ecologically produced natural fibres. At a high level, it defines environmental requirements along the entire textile production chain and at the same time requires compliance with social criteria. These criteria are constantly monitored by independent accredited bodies.

The certificate's criteria include:

- criteria for fibre use
- strict social criteria
- complete wastewater treatment
- regulations on the use of chemicals
- regulation for storage, packaging & transport
- regular testing for harmful substances

A product can only be certified when the complete production chain up to the finished product is certified.

SIZE CHART

The measurements listed by us refer to the wearer (person) and not to the measurements of the respective garment! For example, if the chest measurement is 101 - 104 cm, it means that this product is suitable for a person with this chest measurement. It does not mean that the product itself has these measurements. If your measurements are somewhere between two sizes - we recommend ordering the larger size. Some Karlowsky® trousers come with 3 different inside leg lengths for an optimal fit. Look for the size suffixes s (short) & l (long) when making your selection. All other Karlowsky® trousers are manufactured with a uniform inner leg length of 81 cm. Therefore, for these trousers, the inside leg measurement in the "Normal sizes" table applies.

LADIES

Jackets & Shirts

MEASURING

The assistance of a helping person is recommended. We recommend to wear tight-fitting clothing or underwear. Measure directly on the body.

The necessary additions for the comfort or functionality are taken automatically by us during the creation of the textiles.

RECOMMENDATIONS

Please consider the following helpful measuring recommendations:

1 HEAD GIRTH

It is measured approx. 1 cm above the ears around the head.

2 NECK GIRTH

It is measured approximately at the level of the Adam's apple. The measuring tape is passed once around the neck so that it is at the same height throughout.

3 BODY HEIGHT

Measured from the heel to the mop top of the head.

4 CHEST WIDTH

It is measured horizontally around the body at the strongest point of the chest.

5 WAIST WIDTH

It is measured horizontally around the waist at the thinnest point.

6 HIP WIDTH

It is measured horizontally around the hip at the strongest point of the buttocks.

7 INSIDE LEG LENGTH

It is measured from the font inside along the leg straight down to the floor.

8 FOOT LENGTH

The greatest distance between the heel and the big toe is measured.
